WEB/.NET DEVELOPER

ABOUT ME

Almost 5 years experience as a .NET application developer. Graduated with a B.S. in Computer Information Systems and currently expanding my web specific development skill set as an apprentice at Sparkbox. I have experience in front-end development, back-end/server-side development, UI/UX design, ORACLE database, as well as system conversion and pre/post-production maintenance.

QUALITIES

- Expertise in debugging, troubleshooting, and fixing existing code.
- Excellent problem solving skills.
- Inventive and creative solutions.
- Self driven, motivated individual.
- Team player, who is not afraid to take leadership role.
